- a) Appliqué enhances layers
- b) Knitting forms fabric
- c) Quilting creates warmth
- d) Embroidery adds depth

**Correct Answer: d) Embroidery adds depth**

**Explanation:** Embroidery is a decorative stitching technique that enhances the visual appeal of fabrics by adding depth and texture. It involves stitching patterns onto the fabric's surface using various thread types and techniques, which can transform a simple garment into a unique piece of art. This technique is essential in custom garment design.

#### **2. Which material requires special needle types?**

- a) Silk uses standard needles
- b) Wool is easy to sew
- c) Cotton is versatile
- d) Denim needs thicker needles

**Correct Answer: d) Denim needs thicker needles**

**Explanation:** Denim is a heavy fabric that requires specialized needles designed for thicker materials. Using a standard needle can cause breakage or damage to both the fabric and the sewing machine. Thick needles, like jeans or denim needles, have a stronger shaft and a larger eye to accommodate heavy threads, ensuring quality stitching.

#### **3. What is a key feature of 3D sewing?**

- a) Reduces fabric waste
- b) Uses flat materials only
- c) Adds layers of texture
- d) Requires no planning

**Correct Answer: c) Adds layers of texture**

This method allows for innovative garment construction by layering materials in a way that creates visual interest and depth. Designers often use this technique to enhance aesthetic appeal and create unique fashion statements in their collections.

#### **4. What is crucial for sewing vinyl successfully?**

- a) Cotton thread only
- b) Regular sewing machine
- c) Low stitch tension
- d) Use of walking ft

**Correct Answer: d) Use of walking ft**

**Explanation:** Sewing vinyl requires a walking ft to prevent the material from slipping during the sewing process. The walking ft ensures that the top and bottom layers of fabric feed evenly through the machine, which is essential when working with non-traditional materials like vinyl that can be prone to shifting and sticking.

#### **5. How can you add unique designs to garments?**
